Subject: HB 5162 HB 5163

I am asking you to support HB 5162 and HB 5163, which are bills that would restrict the current authority MDHHS has to mandate future vaccines through the rule-making process. The Michigan rule-making process is broken, with little if any involvement of the public. Additionally, the JCAR committee has no ability to prevent a rule, such as a vaccine mandate, from being promulgated. This is not good for Michigan.

The unelected bureaucrats at MDHHS are not accountable to the citizens of this state and for something as important as a forced medical procedure, citizens deserve adequate representation through the legislative process.

Please let me know if I can count on your support of these bills.
